The customer can then place the full powertrain into the Jeep chassis and weld/bolt on the provided frame brackets, connect a minimal number of wires and hoses, and the driveshafts.

Integrated Powertrain Packages - Novak Conversions :: Quote

Transmissions used in later AMC vehicles came with either a 21-spline or a 23-spline output shaft. Transmissions coupled to four-cylinder engines typically used 21-spline output shafts. The 23-spline manual transmission was universal in the Eagle lines and was generally used with six-cylinder applications. All transfer cases were available with inputs matching either 21- or 23-spline shafts ...
