Thx Samuel for answering..... let's play ball! I am fairly mechanical and have a vag com with software 15.7.? However, I do not think it is a registered copy based on price and the fact there was a note in the package that said "dont update" lol that being said, it does have coding and I just went and took a photo of the sticker by the spare tire.

Ok so I bought a used Audi and have been having problems ever since. I bought it with 20 inch rims the guy said the tire notification was just because it didn't have the factory wheels. He also put a different CD player in and the radio doesn't work. He told me it just needed an amp I knew that wasn't right. He threw away the factory radio.
