The best way to find the right replacement parts for your saw--whatever model you may use--is to know your saw's model number. You can find that information in the original owner's manual if you still have that laying around, or you can search a bit on your saw to find the information you need.

**Saw Parts : eReplacementParts.com**

BEST ANSWER: I'm not sure about fitting on your table saw. I would think so, depending on your arbor length. You could probably find this info in your manual (which, if it's old, you might have to dig for online or something). The difference is cut depth and strain on the saw, I would say. I have ...
