Live preview is a feature that allows a digital camera's display screen to be used as a viewfinder. This provides a means of previewing framing and other exposure before taking the photograph. In most such cameras, the preview is generated by means of continuously and directly projecting the image formed by the lens onto the main image sensor. This in turn feeds the electronic screen with the ...

The TPS/i is much more than just a tool – instead, it is a welding partner that communicates with the user in many different ways. The intuitive plain-text display gives users information on all machine parameters in the form of descriptive texts, and the system automatically detects all available components and warns of any incompatibilities.

Just a year after the arrival of Nikon's full-frame D600 in the fall of 2012, its replacement arrived in 2013. The D610 is the exact same as the D600 but with a new shutter mechanism that boosts continuous shooting and adds a 'Quiet Continuous' mode. The only other upgrade is an improved auto white balance system.
