Professional Engineering | Minnesota Board of Architecture ...

This certification program was designed for engineering technicians working in the fire alarm industry who engage in a combination of the following fire alarm systems activities: system layout (plan preparation), system equipment selection, system installation, system acceptance testing, system trouble-shooting, system servicing, and system technical sales.

Fire Alarm Systems - NICET Main

The primary enforcement and education entity for the application of the laws and regulations relating to fire prevention, life safety, fire protection systems and building construction.

Office of the State Fire Marshal - SFM Home

Much is known about structural steelwork in fire. Rigorous testing, including full-scale building tests in the late 1990s, has led to the development of robust modelling and analytical techniques that are subject to constant refinement. Fire protection accounts for approximately 10-15% of the cost of a steel frame for a typical multi-storey commercial building.
