This list of eponymous laws provides links to articles on laws, principles, adages, and other succinct observations or predictions named after a person. In some cases the person named has coined the law - such as Parkinson's law. In others, the work or publications of the individual have led to the law being so named - as is the case with Moore's law.

Le mot physique prend son sens moderne, plus restreint et mieux défini que le sens originel, au début du XVII e siècle avec Galilée. Selon lui, les lois de la nature s'écrivent en langage mathématique. Les principes d'inertie et de relativité ainsi que les lois découvertes semblent contredire le sens commun.
