In a nutshell, the South African schooling system shows the following characteristics: the national mean mathematics scores are low and need to improve. There is a high differentiation of the educational performance of students from different socio-economic conditions and we can say that we have two systems of education. This means that an estimated 30 percent of schools perform reasonably ...

The Age of Enlightenment dominated advanced thought in Europe from about the 1650s to the 1780s. It developed from a number of sources of "new" ideas, such as challenges to the dogma and authority of the Catholic Church and by increasing interest in the ideas of science, in scientific methods. In philosophy, it called into question traditional ways of thinking.
