Abstract: Recent studies show that the state-of-the-art deep neural networks (DNNs) are vulnerable to adversarial examples, resulting from small-magnitude perturbations added to the input. Given that that emerging physical systems are using DNNs in safety-critical situations, adversarial examples could mislead these systems and cause dangerous situations. Therefore, understanding adversarial ...

Physical geography (also known as geosystems or physiography) is one of the two major sub-fields of geography. Physical geography is the branch of natural science which deals with the study of processes and patterns in the natural environment like the atmosphere, hydrosphere, biosphere, and geosphere, as opposed to the cultural or built environment, the domain of human geography

Physics (from Ancient Greek: φυσική (ἐπιστήμη), romanized: physikḗ (epistḗmē), lit. 'knowledge of nature', from φύσις phýsis "nature") is the natural science that studies matter, its motion, and behavior through space and time, and that studies the related entities of energy and force. Physics is one of the most fundamental scientific disciplines, and its main goal is ...

What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1.It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

Science Songs for Teaching Astronomy, Biology, Botany ...

Highlights We show how clothes systematically influence wearers' psychological processes. Three experiments demonstrate that wearing a lab coat increases attention. Attention did not increase when the coat was not worn or associated with a painter. Attention only increased when the coat was a) worn and b) associated with a doctor. The influence of clothes thus depends on wearing them and their ...

This paper forms part of the Physical Activity 2016 Series. Introduction. In a seminal 1953 Lancet paper, J N Morris and colleagues 1 reported an increased risk of coronary heart disease in London bus drivers compared with conductors. Since then, many observational studies have shown that lack of physical activity is a major risk factor for morbidity and premature mortality.2, 3, 4 Indeed ...

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

The Importance of Play in Promoting Healthy Child ...

Abstract: Most existing machine learning classifiers are highly vulnerable to adversarial examples. An adversarial example is a sample of input data which has been modified very slightly in a way that is intended to cause a machine learning classifier to misclassify it.
