### Western Star Engine Fan Wiring

Yes your correct. Its a Western Star and it is disengaged by power. I found a wiring diagram from the ecm plug for the engine harness and its not showing any outputs for the fan (multi-function 4). On the diagram I have for the oem harness it shows all the inputs and outputs for the multi function wiring there but not on the engine side

The difference between the two modules is the fan timing. The 8042103 will control the period of time the engine fan is on due to high air conditioning head pressure. The 8042105 will defer the fan timing to the engine ECM. The two cannot be interchanged without affecting the period of time the engine fan stays on. 5. I have a Peterbilt.
