These are the draft build instructions for the v2.10 GPIO board from Bowling and Grippo when using it with the MegaShift™ transmission controller software for the GM 4L80E transmission (other transmissions may be similar but may require some changes to suit their requirements). This page specific to the 4L80E transmission was created from the 4L60E page by Dave Hjort, our many thanks for that!

Here is a color-coded diagram of how these components are located on the printed circuit board: If you have questions about the specification or appearance of any item, check the part number at the Digi-Key site ([www.digikey.com](http://www.digikey.com)) first. Entering the part number in their search engine will give you access to both the catalog information and the data sheet from the manufacturer.
